	2.5mm angled connector for any radio or remote speaker microphone with a 2.5mm MONO jack. RX only.		3.5mm angled connector for any radio or remote speaker microphone with a 3.5mm MONO jack. RX only.
Connector Suffix: 2.5	Price Code: Type D	Connector Suffix: 3.5	Price Code: Type D
	3.5mm straight Threaded Straight Connector, Stereo. For any Motorola Speaker Microphone with 3.5mm Screwed Stereo Jack or McKay 2TACTM.		3.5mm angled stereo connector for use with any device with a 3.5mm Stereo Jack.. Examples include: MP3 & CD Players.
Connector Suffix: 3.5SC	Price Code: Type D	Connector Suffix: 3.5ST	Price Code: Type D
	3.5mm straight connector for any radio or remote speaker microphone with a 3.5mm MONO jack. RX only.		1/4 inch straight Mono connector
Connector Suffix: 3.5S	Price Code: Type D	Connector Suffix: 1/4	Price Code: Type A

How our part numbers and connector code chart work together...

We offer products for many different makes & models of radio. For this reason our part numbers are broken up into two main components... the Accessory Part Number + the Connector Suffix. When put together the two components make up the entire product part number for ordering purposes.

Example:

1. Choose the accessory type: 1WX (acoustic tube with in-line PTT/Microphone)
2. Choose the connector type: M4 (Motorola HT750 connector)
3. Product Code for a 1WX to fit the Motorola HT750 is... 1WX-M4

Price Codes: Not all connectors are the same price. For this reason we have given all connectors a code to help categorize the costs within our catalogue and price list. Here is a quick summary:

TYPE A: Standard single and 2 pin style plugs

TYPE B: Most standard Multi-pin style plugs

TYPE C: Higher priced Multi-pin style plugs

TYPE D: Listen-Only style plugs
