## Endura Rapid Chargers

The Endura TWC1 and TWC6M are high quality models that will charge your radio's battery quickly and properly every time. Endura chargers are "smart" because they not only prevent over charging a battery, but also provide automatic re-charging of a battery when the radio remains "powered on" while in the charger.

**Model: TWC1**

Model TWC1: The TWC1 single unit charger is ideal for desktop use. It includes an AC to DC power supply (UL listed), charging pod, user manual, and 12-month warranty.

▶▶ **\$49.00** Canadian MSRP

**Model: TWC6M**

The TWC6M is a multi-unit charger with a compact footprint and ideally suited for use in an office, shop, or mobile command center. The TWC6M includes an AC to DC power supply (UL listed), six charging pods, user manual, and 12-month warranty. For Rechargeable Two-Way Radio Batteries

▶▶ **\$445.00** Canadian MSRP

**All models feature:**

- Advanced diagnostic circuitry and LED flash pattern that identifies battery fault conditions.
- Charge status LED that shows battery charging "in progress", "80% charged", or "fully charged".
- Replaceable charging pods that allow future use with different radios.

**Charger Accessories**
