- Heavy Duty Velcro Head strap on behind-the-head model.
- Industry standard hardhat mount system allows for easy clip on of face shields, etc.

HRXOH Over-the-head Style

HRXHH Hard-hat-mount Style

DND™
PNR™ Technology

PATENTED PNR™ TECHNOLOGY

AVCOMM patented PNR™ technology provides the highest level of audio performance, incredible voice clarity and higher noise attenuation. Certified 24 dB NRR, you can hear the difference! Ultra-lite Neodymium speakers provide rich, smooth frequency response so you no longer have to strain to hear radio conversation.

AVCOMM EasyLink™ detachable cords allow the headset to interface with virtually all major brands of radio and intercom through a built-in universal 5-pin jack and a detachable cord with positive-lock connector. If the cord is ever damaged, simply replace the cord, not the headset, and get back to work in seconds. With AVCOMM detachable cords, outfitting one person or an entire company is cost effective and provides flexibility for maintenance, expansion, or modifications.

EasyLink™ Receive Only Headset Cords

				
	Part#: CL-3.5	CL-3.5SC	CL-3.5ST	CL-14-05
Standard disconnect headset cables. Used to plug directly into the radio on the belt. 	Part#: CLS-3.5	CLS-2.5
Shorter disconnect headset cables. Used to plug into 2-way radio speaker microphones on the shoulder.	Short Cord, 3.5 mm mono plug 400mm coiled	Short Cord, 2.5 mm mono plug 400mm coiled

PATHOGENICS AND HYGIENE

Because AVCOMM headsets feature detachable cords, users can take their own headset with them easily and connect/disconnect as needed. This is an affordable way to reduce the spread of pathogenic viruses caused by shared headsets since the headset and cords are sold separately.
